MURDERED HER HUSBAND.

An Iowa Woman Confesses to a De-

liberate Crime.
Orange City, Iowa, Feb. 22.—The trial of Mrs. Alice A. Blood for the murder of her husband, George H. Blood, at Hall, this county, last September, has resulted in some surprising revelations.

No denial is made of the fact that Mrs. Blood took her husband's life. The contention of the defense is that she was temporarily insane as a result of the long course of ill-treatment to which he is alleged to have subjected her.

The Bloods were well known in Sioux county and highly respected. Mrs. Blood had been ill for three weeks prior to the tragedy. On the night of September 12, she says her husband told her that their oldest daughter was about to leave home and make her own living, and that he proposed to make her do it.

This conversation, it is claimed, drove his wife to desperation. The next morning, according to her own account, she left her bed, took her husband's revolver, entered the dining room where he was sitting at breakfast and shot him in the back of the head. Then she returned to her room. The sound of the wounded man's heavy breathing annoyed her so much, however, that she went back and finished him with another shot.

Melting Snow Reveals a Body.

Easton, Md., Feb. 22.—One trapped in the snow of the blizzard is revealed in Talbot county by the melting snow. Monday morning the corpse of a negro youth was found in a melted snowdrift by two colored men near Pocomoke. It was identified as the body of Perry Miller Dehls, who must have died during the storm of Monday, February 21. He was at Cordova that day and bought meat and gum boots. His body was found within two hundred yards of his home, and the surrounding conditions showed that he had made a struggle for life. He was eighteen years old and was in good standing among the people of his neighborhood.

Hungry Crows Eat Each Other.

Hagerstown, Md., Feb. 22.—Samuel Thomas, near Keedysville, Washington county, while watching a flock of hungry crows, which have not been able to find any food, noticed that six or eight of them commenced fighting several others until they were dead and then ate them.

SMOTHERED TO DEATH IN A LARGE TRUNK

Insane Mother Kills Her Feeble-Minded Son.

Husband Delivers His Wife Into the Law's Custody.

Justice White Commits the Apparent-Demented Woman to the Montevue Asylum.

Frederick, Md., Feb. 22.—David M. Wachter, a well-known farmer of Lewistown, nine miles north of Frederick, came to this city about 9 o'clock last night with his wife, Clara E. Wachter, and going to police headquarters turned her over to the custody of the law, charging her with having killed their sixteen-year-old son by suffocation yesterday afternoon at their home during his absence.

Mr. Wachter drove up to the station with his wife, both of whom are about forty-two years of age, and gently assisted her from the spring wagon. Going up to Justice White he told him that his wife, who stood by his side, had been laboring under temporary mental aberration, taken their son, Robert E. Lee Wachter, a deformed and feeble-minded boy, and wrapping him up in a blanket, threw him into a large-sized trunk and, closing the lid down tightly, smothered him to death. He stated that she said "the child's time had come to go."

Mrs. Wachter all the while stood by utterly indifferent to the grave charge and did not seem to comprehend its nature. She merely remained there, watching the act of her husband, who was waiting for her to go to the station. She was wearing a dark dress and a white apron, and her hair was pulled up in a bun.

After sending the woman to the hospital, Justice White went to the station to see the body of the child. The body was found in a large trunk, and the child was found to be dead.

There were two points in his favor. First, he had been deluged with tender missives from all over the country, and women of every degree had been offering to take him out of the district. Scores of their photographs, and some went so far as to send him and even asked measurements.

Naturally bashful, however, the Sussex county bachelor has been unable thus far to decide, although the choice, it is understood, has narrowed to three New York beauties, a Pittsburgh girl, and a Philadelphia. The time of probation expired last night and the house, by resolution today, extended the time limit ten days longer.

HEART DISEASE.

SOME FACTS REGARDING THE RAPID INCREASE OF HEART TROUBLES.

Do Not Be Alarmed, But Look for the Cause.

Heart troubles, at least among the Americans, are certainly increasing, and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of indigestion, and of constipation.

Real organic disease is incurable; but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and Pneumogastric.

In another way, the heart is affected by the form of poor digestion, which causes gas and fermentation from half-digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action; hence arise palpitation and short breath.

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart.

The treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food. This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores, and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that the regular use of Stuart's Dyspepsia Tablets at the end of each meal will insure a healthy stomach, a clear blood, and a strong heart.
